INTRODUCTION

This volume continues the publication of the records of the descendants of Samuel Tingley. This project was started by my mother, Mrs. Marian M. Frye 10-03079-02, and without her research these books could not have been published. With the assistance of descendants in updating her notes, I am attempting to complete the publication of the records which she collected.

Any errors or additional information regarding the records in this volume or in previous volumes may be sent to Harold E. Frye, 3757 NW 53rd Road, Gainesville, FL 32653-0878, U.S.A. E-mail to afn03736@afn.org or to hfrye@juno.com .

Readers of this book may be interested in the *TINGLEYS UNITED ASSOCIATION*. At this time, membership dues are $5 per year or $35 for a Life Membership. T-U News is published twice a year. Please note that I have no connection with T-U except as a member. Currently, the T-U President is Ms. Cindy Franklin, 2900 N Grant St., Little Rock, AR 72207 (meshoppen@hotmail.com). The T-U Secretary-Treasurer (to whom dues should be sent) is Mr. Ted Tingley, 3968 River Glen Drive, Lewisburg, TN 37091 (tingley1956@peoplepc.com). The *TINGLEYS UNITED* web page is at http://www.tingley.org . My web page is at http://www.afn.org/~afn03736, and at http://freepages.genealogy .rootsweb.com/~tingley .

10-01172-02 ELVA GEOA CLARK-LOHOFF[11] (Clara[10], Sophina[9], Charlotte[8], John[7], Jemima[6], Josiah[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), of Englewood, CO, born May 18, 1892 at Ness City, KS; died Jan. 3, 1987 at Mercer Island, King Co., WA[806]; married Oct. 23, 1910 at father's home, Gove Co., KS, Oscar Julian, son of Rudolph and Marie Amelia (Westinghouse) Lohoff, of Utica, KS, born Nov. 12, 1885 at Marysville, KS; died July 31, 1962 at Englewood, CO, stroke followed by pneumonia, buried in Chapel Hills Memorial Gardens near Littleton, CO. Oscar's parents were b. in Germany, buried in Utica, KS. Oscar was a farmer. He homesteaded in Towner, CO, soon after marriage, living there over 40 years, moving to Englewood, CO about 1956.[803]

Ivalee says: "When I was 13 (1933) my father bought a frame house, which had been vacant for several years. They put it on skids and moved it by sections, the ten miles to our place and joined it to the adobe house.

Keith, the youngest, was born in that part of the house... When the house was being moved and put on a foundation, the jacks slipped and pinned my Dad's arm, with the result of a compound fracture. Mama wanted him to go to the doctor but he refused. I remember him pacing the floor but never complaining about the pain. The arm did heal but he had limited use of it thereafter."

The following letter was written to Everett J. Clark by Elva in answer to a letter written by him to her sister, Mariam 11-01941:

"Dear Cousins Dorothy and Everett: I am at last trying to write you for my sister, the day after Thanksgiving, she fell at work breaking her wrist in three places. Her right arm of course, so she gave me your letter asking me to write you for her.

"Well, as you know, my father, Marion was a venturesome lad, he left home early, and was a 'brakie' on the railroad awhile, but tiring of that and I suppose hearing of lands to be taken (supposedly free) in Kansas, the government let them have 160 acres against their filing fees, they couldn't live on it long enough to prove it up, and usually the government won--more lost than proved up, as times were hard, and jobs scarce. It was dry and hot in summer and long cold winters then, with all the conveniences they have now and the change in weather conditions, it would be much easier to prove up on one.

"My father went west--whether he followed someone else who had written about the wonderful land to be had or was the first to go from that community, I am not sure, but I believe he left before any of the other families did. The Simmons, Thorps, Wallis and Hawthornes around Richmond all at one time (the older ones) had lived around Winchester. A lot of their relatives sleep in that cemetery near Ridgeville or Winchester. At any rate, my father was the first of his family to go west. Just why he went to Richmond, Kansas, I do not know, unless because of Richmond, Ind. Also I do not know why he went on west, except land was to be had near Utica. He took a pre-emption, I think they called it, anyway he never proved it up.

"My mother, her twin brother and her father took land in Gove Co., it was north of Ness Co., where Utica is. Mother's was a homestead. Her father's was a timber claim and it joined mamas. Uncle George's was a tree claim farther on north, each was 160 acres. George had family troubles, gave it up and went back to near Richmond, where my grandfather had homesteaded when coming back from the Civil War. After struggling a year or two, grandpa followed him, mama stayed on hers the required time and worked in a hotel in Dighton, a town in Lane Co., probably 20 miles or so from Utica and her homestead was twelve miles from Utica on the Smokey Hill River. They met at Dighton. I remember that, but do not know. They were married, then moved out on mother's homestead. I do not know if my older sister was born there or not, but she died there and was buried out there in the Alanthus graveyard. I think there was a small church or schoolhouse there. When we moved out in 1902, when I was ten, there was a post-office in a farm home called Alanthus also a small store.

At the time Wanda died there was a diphtheria epidemic in the neighborhood. I think six or eight children died. Mother took it and Wanda took it from her. Doctors were a long ways away then, and knew very little to do when we had it (myself and all the children.) Lewis Clark was tiny then and took it from me. We had several doctors then and for eight months, we thought every day would be his last. That was 43 years ago and you can imagine what it was like in 1889 or 1890. Anyway, all the men in the neighborhood were away at work except dad. He helped with the burials digging the graves and making some of the caskets, though Wanda's was one they bought, I think he and a neighbor lady did everything. Wanda lacked eleven days being a year old. They were heartbroken and left the homestead and moved to Ness City. Dad was a carpenter and helped build the Lyon Block buildings made of native stone and still in use. Two or three years later, I was born there in Ness City. Mama wasn't very well, so a girl named Lena Lohoff (my husband's sister) stayed with my folks and went to school at Ness City.

"Mr. Lohoff, my husband's father died leaving eleven children, several older than Lena. My husband was one of the three younger children and was five when his father died. Ness is 25 or 30 miles east and north of Utica in Lane Co. (Ness, Lane and Gove Counties corner). They lived several miles southwest of mother's homestead. When I was nine months old, Lena came home one day from school and said they had diphtheria in school. Dad got mother and me dressed and packed and on the train in a very few minutes or hours on our way to Richmond where both his parents and hers lived. I do not think we stayed too long with them as dad sold or gave our things away. He may have driven a wagon and team back, I don't know. It's about 300 miles from there.

"I remember we moved from one farm to another every year or oftener, as dad was a good farmer and was always fixing up and cleaning up the places, so they were sold out from under us. My brother was born near or in Princeton, I remember him as a baby near Ottawa, then as beginning to creep, in a house in Princeton. When I was hardly two, we lived near Richmond and I went to school my first year at Taply school, where my grandfather Dorman and my mother both taught school. Then we moved to Media to grandpa Clark's farm, one he had traded the place near Jesse Collins for. Billy went to his first school near there and my sister Mariam was born there.

"When she was quite small, grandpa moved to the farm and we moved into a big house in Media, that was a small place about a mile from Baldwin. It had a board sidewalk all the way from Baldwin to Media, and we went a mile to school at Prairie City. The school was all that was left of that little village. I think they are both gone now.

"My sister, Mariam, was born in 1900, eight years younger than I on grandpa's farm, then dad bought a small place in Media. He was working on the section and couldn't get anywhere that way, so he sold the place, loaded everything into an emigrant car and went back to the homestead.

I was ten, Billy eight and Mariam two. We went out a few weeks after dad did. He had built a small part sod and part dugout with dirt floor, where we lived until he could build a better house. The fleas nearly ate us up, the prairie was full of prairie dogs then and I suppose the fleas lived with them, too.

"Everyone lived then about as we did. It was much different than we were used to but we grew up happy and carefree. Neighbors were neighbors then, no one had very much, our school was about 3 miles away. We walked or ran right along the river. Dad always got us overshoes to wear. Several other families children went the same way, and we all took off our shoes and overshoes, rolled up our longies, tied our shoestrings together and put them around our neck, left our overshoes on the riverbanks to pick up at nite and waded down the river until within a half mile of the schoolhouse. On one side of the river, the land sloped almost to a level and the other side had high shale bluffs and we were forbidden to go under them for fear they would give way and bury us. There was a very narrow path that went under them, but we almost always went under them. At that time, I could run faster than anyone that went to our school and I'd take off with the rest chasing me. Sometimes I'd slip off into the river and it was about knee deep. The current ran close to the bank and many a day I sat wet to the knees, but I never took cold. One day one of our neighbors caught us wading in the icy water with our shoes around our necks, but he was good scout and never gave us away. We had lots of fun. Many of those school mates are dead now, it's all so long ago and I was one of the older ones, so time is likely short for me now.

"As dad got ahead he bought more land and had cattle, hogs, chickens, horses and always garden, the land was new and good. Dad was a good farmer, raised mostly corn, some maize, kaffir corn and millet and usually a lot of good melons that did so well in the sandy soil. He had at the time of his death three quarters of land.

"At that time there was no high school near us so Billy and I went to Richmond and stayed at grandpa Clark's one term. Dad paid them for keeping us, as he had been sending money to them to help out for a long time. We came home in the spring and Oscar and I were married last fall at a home wedding Oct. 23, 1910. I had met him three years before when he and his brother shucked our corn. He fell in love with me and the next year dad let us see each other on Sundays. Just before I left for high school he proposed to me and gave me a ring, and I was away all winter and spring and wasn't much interested in school after that so we were married that fall.

"Billy went to Normal at Gove City, and stayed home and helped dad farm and took a high school correspondence course for a couple years and then entered University of Lawrence for several years then was in the Air Force as a pilot in World War I. Later he taught high school for a couple years, one year at Bazine, Kansas, and one year he taught at Peoria, Arizona, then he went back to Kansas University and became a Doctor and Surgeon.

"Mariam went to high school at Utica, by the time she was ready, they had built one there.

"Oscar was 25 and I was 18 at the time of our marriage, and had homesteaded in Eastern Colo. three years before, but farmed near his mother's place and he batched in a small house on that farm, we lived there until in the last of March we started for his homestead in Colo. When we left with our meager belongings in two old wagons we had his batching furniture in one end and two shoats and a dozen hens and a rooster, a breaking plow and some grain and quite a lot of potatoes and two cured hogs in ham and bacon. That was quite a procession, one wagon tied behind the other, a top buggy behind that and a cow tied to the buggy. We were a week on the road, about 125 miles. It was April 1st, almost dark when we reached his claim, that claim shanty was something else too, about 8 x 10 high on one side and low at the back, dirt floor, though it was frame, the roof boards were warped and about all the rain we had that summer fell that nite, but we were in love and happy. We prospered eventually and raised a nice family and we were never on relief of any kind. We worked hard and the children all learned to work. It was very hard life, full of ups and downs, and the hard work shortened my husband's life I think. He passed away in 1962, twelve years after he retired. I am alone now and life is not the same, some day I hope to join him.

"My brother married a nice girl from Eastern Kansas. She was a high school teacher and also taught piano and flute. My brother passed away six weeks after Oscar did, Sept. 16, 1962. He left two sons, both doctors. His son Marion has six children and Calvin has two. His wife is still very active in church and school and teaches a large music class. Not of necessity but to keep busy.

"My sister married a young man, who lived near Utica, he moved there after I left home, but his family had lived in Utica for many years. He passed away a year or so before Oscar did. They lost one son, Jack, by drowning in 1944. The youngest girl just married the 14th of this month to a Mr. Cal Harvey. His people did live at Utica for a number of years, but are living at Liberal, Kansas now. The youngest boy, Stanley, is in Vietnam for a year. Delmar, the oldest boy is a Wake Island, his family are living here in Aurora. Eleanor's husband retired a year ago after 23 years in the Air Force. Donna Raye's husband, also Air Force has been transferred to Colorado Springs for several years.

"As to the Clarks, grandpa Daniel had blue eyes and when I first remember him his hair was thick, curly and white as was his beard, he wore no moustache, he was short, sturdy, very powerfully built as was my brother. I remember dad saying how strong grandpa was. Once when they had a big load of wood on a wagon, a wheel slipped off, anyway grandpa put his back and shoulder under the axle and raised it up while dad slipped the wheel on. He was very quiet and had studied law under someone who practiced law in Ohio or Indiana.

"Grandma was short, slender, very quick and active, one of the world's

best housekeepers and cooks, blue eyes and long dark hair, that never became completely white, it was only frosted a little at her death. If I remember right, she was in her ninetys. They were Quakers I've always heard. Omar Simmons said they were a splinter branch, Hixites they called them. Omar said later they joined the Unitarians. I do not know if they went to church much after moving to Kansas. My parents were Methodists, but we had no church near us except in summers they held church and Sunday School in the schoolhouse.

"When Kansas was first settled after the Civil War, it had few trees, the pioneers during my grandfather Dormans early life in Kansas endured many hardships and hard work. He was from New York, had come from Ireland, as a lad of 14 years. His father was Scotch, he was apprenticed as a wheel wright and built wagons. He met grandmother near Mound City where her mother lived. Grandma Dorman was a teacher of Shawnee Mission for a time when they came from Illinois, shortly after war began, he joined the Union army and was in Mo. She was to go to New York to Lockport where his people lived, but after much persuasion on her part and grandpa's insistence they got a man to row her and her trunk across the river to Westport Landing (now Kansas City), she got aboard the last train that pulled out of Westport Landing before the rebels pulled up the tracks and burned the ties. (Grandpa had requisitioned a horse and galloped to her to get her out of the way of rebels).

"In going downstairs at St. Joe, Mo. to change trains, she fell down a flight of stairs, but was helped on the train. Her grandparents Fillmores lived at Lodi, Ill. (now part of Chicago) so she got off there, where because of her fall, her twins were born. My Uncle George weighed 2 1/2 lbs. and my mother weighed 3 lbs., they wrapped each in a cotton bat and heated brick to keep them warm in their basket, feeding them sugar water from a rag. No incubators then or hot water bottles. She was very ill for a long time but later took the babies on to his folks in New York. He was wounded by a shot in the lung and grandma came to him with the babies, then 3 1/2 years old, and that was the first time grandpa had seen them. They filed on a homestead near Richmond and died there and are buried in that cemetery, as are grandpa and grandma Clark. They were a grand couple, whom I adored. Anything they had we could play with, they always showed us such a good time.

"Western Kansas had even fewer trees and less water than Eastern Kansas, lots of it was flat land, much of it was covered with tall bunch grass, the rest short buffalo grass. Often they had very destructive prairie fires that took everything in its path, usually they were set by trains, sparks from the old coal burners. When mama homesteaded the buffalos were gone, by perhaps 19 years, but numerous antelope still roamed the prairies, and hundreds of jackrabbits and prairie dog and coyotes were there. There are a lot of deer now, fewer coyotes, the prairie dogs and fleas are gone. One can see a few beaver along the rivers now where they have made dams, they were non-existent there when I was growing up, land is getting higher

all the time, much of it owned by big operators, and much wheat is raised now, not too much corn, it's all done by huge machinery now. Oil has been discovered on much land around Utica, on dad's place there are two wells now, but regulations as to how much one can pump ruins many of them by salt water running in.

"As to the wealth of the family I know very little, Maude Collins married into a family who had good land and both she and Clayton were good workers and he bought more. Uncle Jesse Collins was quite a lot older than his wife, Charlotte Victoria Clark, he was from Indiana also and they had five children when they moved to Kansas. Walter (the husband of Mrs. Bess Collins who lives in Ottawa, they had 4 daughters some of them were at the reunion) was my age and they moved in with us at Princeton until they got a place. Jess was a Union soldier too, he and his family depended a lot on his pension, they worked very hard but their land was not too good, and he may not have been too good a farmer, also they had a large family, Aunt Lotte was a wonderful housekeeper and mother. I loved to go there and always had so much fun with their family, they are all gone now, but Maude and Everett.

"Uncle John W. Clark was my favorite uncle, I'm not sure if he or Aunt Ella Simmons is the older. Uncle John was short, dark haired, blue eyed and very handsome, he was quiet but so much fun, he loved to hunt and fish and locate bee trees in the woods and tree coons, he was a good farmer and at one time that old tumbledown house and barn were among the nicest in the neighborhood, he tried so hard and was liked by all, he was Grand Deputy Pres. of Odd Fellows of Kansas at one time and could recite the rules and regulations and codes of the order by heart, he played the guitar and was a wonderful singer, he was to have gone on radio at the time of his death. Aunt Anne was not too well and had a large family to take care of, as well as his parents made their home with them in their latter years, there was also tragedy in their family, as a young daughter was accidently shot and killed early in life, and the terrible influenza epidemic during World War I took its toll both in their family and that of the Collins' also. Aunt Anna looks better now than I have ever seen her and at present is still living, being quite old, and is living with one of her daughters, I don't know how well off that he left her or how she is provided for. I do know dad was always helping out his folks, they finally moved in with Johns and gave him what property they had, I don't suppose it amounted to a great deal, we never knew or cared about it, my father was always so glad that they could be taken care of, in their old age and was always sending money to them. Uncle Charles was older than John, taller and thinner, I expect he was the tallest in the family.

"Charles was dark-haired and blue-eyed, he married a girl named Eva Johnson, they had two daughters, Flossie and Nita Clark. Aunt Eva was very good housekeeper and cook and worked hard, she had several brothers that were on the West Coast and Alaska. He was a carpenter and contractor and built them a nice home in the neighborhood of the schoolhouse

where the reunion gathering was held, but she wanted him to go west where her brothers were, he built and contracted many houses in Portland for a good many years, he died of a heart attack as did Aunt Lotte and Uncle John. Flossie married a man with big ideas about high finance and Aunt Eva loaned him their money and also mortgaged their hotel in Vancouver, Wash. to him and he lost it all. Nita told me about it and how it beat her out of a college education and broke her father's heart, she was quite bitter about it all. Uncle Charles built them several nice houses in Portland and Vancouver.

"Dad's youngest sister, Aunt Ella, my favorite aunt, married a fine man, he was killed accidently in a boiler explosion in the early 1900's while he was working at Armour's meat packing plant in Kansas City where they lived, they had 5 children. Omar Simmons was one of his sons, and was quite young when his father was killed. Aunt Ella raised a wonderful family all by herself. She was so tiny and weighed so little, but she knew what her children were doing and where they were at all times, she got heavier as she got older and was shorter than I am, as was Aunt Lotte who was always heavy as I remember. I did hear she had dropsy. Aunt Ella, at the last time I saw her, she looked so much like Inis, such a remarkable resemblance, her eyes were blue and her hair dark.

"Dad was thin not very tall 5' 2 I'm not sure, dark hazel eyes, both he and mama were good singers both were short, mama had beautiful very dark brown eyes and long dark hair, dad's hair was dark almost black, was quite handsome, and was very quick tempered, always wore a moustache. I think most of the family were afraid to venture away from their folks and most of them were not able to start them out on farms.

"I have had no luck finding the whereabouts of Uncle Al's family, I do remember him of course I was very young about 4 maybe, when Susie, his daughter came to visit us when we lived at Princeton, he came for her, he was about your build and height, Susie was very pretty. I don't remember of him ever visiting us any more after that. These are some of the things I remember about different ones of the family, and I wish I had asked them about more things when I was younger, I could have found out so many things then. Hope this will fill you in on a few things, and wish both you and Dorothy the best of luck. Love to you both, Elva Lohoff."

10-01201-01 LaVERNE PAUL FILLMORE[11] (Paul[10], William[9], William[8], John[7], Jemima[6], Josiah[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), 1004 W Birch Ave., Mitchell, SD 57301-3232, born Mar. 25, 1926 near Atkinson, Holt Co., NE; married Feb. 13, 1948 by Dr. Lockridge at United Methodist parsonage, Mitchell, Davison Co., SD, Joyce (Bette) Annabeth, daughter of George Dewey and Ocie Gladys (Carr) Heinbaugh, of Belle Fourche, SD, born May 26, 1928 at the farm on the edge Belle Fourche, Butte Co., SD; died Sep. 8, 2003 at Mitchell, SD, buried in the American Legion Cem. at Lake Mitchell, SD.

LaVerne attended Mitchell Senior High and was noted for his athletic achievements. He boxed Golden Gloves competition and competed in all high school sports. He was a lifeguard and taught at the Mitchell Public Beach on Lake Mitchell.

LaVerne served with the 302 Inf. Co. 4, 94th Div., 3rd and 7th Armies. After a short training period he was sent overseas to England, France, and Germany. He earned two battle stars, one as a squad leader of a machine gun unit in General Patton's push through Germany. He was with the Disciplinary Training Unit as Sgt. of the Guard (MP's) 2913 Inf. after armistice was declared. When he came home he attended Dakota Wesleyan College, where he loved playing football and worked as a life guard and swim instructor. He met Bette at the college pool.

LaVerne's parents, Paul and Lois, had purchased the boarded up Dethleff Greenhouse property in Mitchell (the first greenhouse in Dakota Territory), sold their home and moved to Sioux Falls by February 1948, when LaVerne and Bette were married. While attending college, LaVerne and Bette tore down and built two apartments and a small cafe called *The Garden Spot* on the Dethleff property. LaVerne remembers, early in the morning Mrs. Risling would stop by and bake pies and a large hot dish for the customers and staff. The rest of the day they all took turns cooking and serving. The cafe was short lived when two other cafes opened nearby, so the students built five more units and the name was changed to *The Garden Spot Apartments*. The apartments were sold in 1963 and became a parking lot; the only thing remaining is a favorite Catalpa tree.

Bette was raised on a large sheep ranch between Belle Fourche and Devils Tower, WY. From a very young age she was her mother's other hands, cooking and cleaning for the family and feeding all the sheepherders. Bette and her sisters were known for their spelling and recitation. Bette won competition as a one-man-band and with a chalk talk. She worked cleaning her Grandmother's house, was a nanny and a telephone operator, while attending High School in Belle Fourche. She worked two and three jobs at a time while attending Dakota Wesleyan for two years, and was known for her "jitter bug" at dances. As a young wife, Bette was active in Extension, Scouting, and PTA. She organized the Genealogy Club in Mitchell, and did much research on her family and for others. From 1965 to 1978 she was an insurance clerk at the Methodist Hospital. Later she was an ar-

chivist for the Methodist Conference for SD. In 1985 she had a stroke and retired in 1986. Bette was the motivating force for the Davison Co. Cem. guide, which can be found in most of the funeral homes in the state.

LaVerne worked many jobs and was a Mitchell Park foreman for 7 years, a postman, and did warrantees for Standard Oil. He retired in 1988, after 30 years as a foreman in the SD State Highway Department, to take care of Bette. LaVerne loved and was active in hunting with bow and arrow as well as guns. LaVerne has raised birds most of his life, from banny chickens as a child, to competitive show pigeons and racing homing pigeons. He is an avid fisherman and pheasant hunter, member of the American Legion, and Palace City Racing Club (homing pigeon club), a gardener, Methodist church usher and a volunteer in his community. LaVerne and Bette enjoyed their trips south with friends as snowbirds in TX, AZ, the Bahamas, CA, and FL. They were also members of the Good SAM's Club and traveled in the South Dakota area.[803]

10-01238-04 BORDEN BOWSER OULTON[11] (Elizabeth[10], Elizabeth[9], Seraphina[8], Charlotte[7], Jemima[6], Josiah[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), of Sackville, N.B., born Sep. 28, 1913 (Dec. in obituary) at Amherst, N.S.; died May 3, 1968 at Memorial Hosp., Sackville, N.B., buried in Fairhaven Memorial Gardens Cem. at Moncton, N.B.; married Aug. 2, 1944 at Sackville, N.B., Jean Elizabeth (Betty), daughter of George and Alice (Richardson) Carter, of Sackville, N.B., born Aug. 29, 1923 at Sackville, N.B. Borden and Betty owned Bordens Diner and Dykeland Motel.[801]

From a 1977 article in *The Moncton Times*:

When Betty and Borden Oulton opened their canteen on the edge of Sackville's Tantramar marshes in 1950 they sold lobster rolls for 35 cents. "We sell the same lobster roll now" said Betty "for $2.45".

Our main objective, she went on to say, is to give a "good meal at a good price." Although the cost of foodstuffs has sky-rocketed over the past few years, Bordens Restaurant has refused to compromise in their food preparation and keep reasonable family prices by serving more customers while keeping the profit per order to a minimum.

Although Borden Oulton passed away in 1968 the restaurant he and Betty founded has thrived and expanded with Betty as proprietress and family Matriarch. Eldest son, Doug, is the restaurant manager, daughter Carol is bookkeeper and although youngest son, Peter is studying electronics he pitches in and "lends a hand". Daughter-in-law Nancy Oulton helps with the training of waitresses. Besides "The Family," Borden's restaurant employs 25 persons on a regular basis.

Only local beef and seafoods are used at Borden's Restaurant, with all other foodstuffs being obtained through local wholesalers. The beef is butchered, the steaks cut, the hamburg ground and the pork chops cut by Doug Oulton, with the restaurant having its own walk-in cooler, etc. to facilitate this.

Pastries are Betty Oulton's specialty and are made fresh daily by her. The restaurant's famous seafood casserole is a recipe Betty contrived by experimentation through the years and one will be hard-pressed to find a more tempting dish. Betty explains the most popular meals are lobster rolls, followed by roast turkey, seafood casserole and seafood platter.

The little canteen, opened in 1950 consisted of a counter and 10 stools, a juke box outside and a loud-speaker announcing customers' orders were ready. Originally called "Tantramar Lunch" the local clientele soon dubbed it "Bordie's" or Borden's, mostly because of Borden Oulton's jovial personality. Business boomed as people of the Chignecto area became aware of this eating oasis in Sackville.

The little canteen was built onto several times and in 1960 a new restaurant and motel was built and officially called "Borden's Diner and Dykeland Motel." By this time customers no longer came up from just the im-

mediate area but many tourists returned again and again with commercial travellers frequenting Borden's on a regular basis.

Herbert was a photographer and photo engraver for 45 years at the Express Publishing Co., San Antonio, TX and served in the medical corps in W.W. II. No children of either marriage.

Flora inherited her grandfather Davies' nose, being the only one who did in 7 children. She was born the day her grandfather Davies was buried. She moved with her parents to the lower Rio Grande Valley in 1918 and settled north of the town of Weslaco. It was named after W.E. Stewart Land Co. The town was not there in 1918 and this Chandler family was one of the pioneer settlers who started the town.

Flora graduated from the Weslaco High School in 1924. Flora and Herbert spent their honeymoon at Niagara Falls. They went down under the falls and rode on the *Maid of the Mist* boat over on the Canadian side.[801]

In 1972 he was transferred to the new Maximum Security Prison at Millhaven, Ont.

While transporting a prisoner from the Kingston Penitentiary to the federal prison at Stoney Mountain in Manitoba, the prisoner made an unsuccessful attempt to hijack an Air Canada passenger plane. Carman gave the prisoner permission to use the washroom and freed him from his handcuffs. Upon returning to his seat the prisoner grabbed a passing stewardess and held what appeared to be a gun to her head. The prisoner then ordered Carman to handcuff himself so the prisoner would have free rein, but Carman refused and began talking to the prisoner. The prisoner then became remorseful, gave the phoney gun to Carman, and returned to his seat and wept. The stewardess, who was released voluntarily by the prisoner during the discussion with Carman, continued about her duties. Other passengers on the plane were apparently not aware of the incident.[801]

09-00546-02 HOWARD BREWSTER TINGLEY died June 11, 1994 at Penngrove, CA. He was a teacher and principal in the Petaluma, CA school district for 37 years.

The following excerpts are from an article in the Sep. 9, 1990 issue of *The Press Democrat*, Santa Rosa, CA:

Career took root during Depression
Teaching blossomed for Tingley

Nine-year-old Howard Tingley, with his sister and parents, stood outside the Oval Office, watching the two U.S. Marines guarding the door pace back and forth.

His father, not impressed with the sign "The President is in, but not receiving," waited until the guards were momentarily out of sight and entered the hallowed chamber, just for a peak [sic] of President Woodrow Wilson.

The guards grabbed him, but Wilson, obviously enjoying the man's enthusiasm, invited in the whole family.

"I was a chunky-faced little kid," says Tingley, now 80, "and he shook my hand and asked me if I wanted to be president. I said, 'No, it's too much work.' My parents kidded me about that until they died. Wilson was really a very nice man."

The year was 1919, and the Tingley family was at the start of a three-month trip west, from Maine to California, that would eventually lead to Tingley's 37-year career as a Petaluma teacher and school administrator.

Advised by a doctor to seek a drier climate for the sake of the young Tingley's health, the family had packed its belongings into a 1917 Ford and headed across country. The Tingleys, after getting a $1 speeding ticket for traveling 21 mph in a 20 mph zone in Philadelphia, saw no paved roads, just gravel and mud, from Pittsburgh to Los Angeles. Just outside Barstow, they broke an axle, camping by the side of the road while the father hitched into town. They saw two cars in three days.

Settling in San Francisco, Tingley's father made wooden, metal-plated roadster bodies across from the U.S. Mint on Market Street. He later moved to Orland, near Chico, to run a dairy farm. Tingley received a B.A. from the Chico State Teachers' College, where he met Hazel, his wife of 57 years.

He earned his master's degree in tests and measurements from Oregon State. Hazel attended Chico State for 3 years and later got her B.A.

The couple now live in a large house on five acres, just blocks from the former two-room Penngrove Junior High School where Tingley, age 22 in 1932, got his first job "teaching most everything" for $1,600 a year.

In the Depression, that wasn't bad, he says. Teaching jobs in Lodi, the lowest paid in the state, earned $800, and there was no shortage of applicants. By comparison, he says, people who thinned out peaches got a mere 15 cents an hour, and had to wait four months until the harvest ended for their wages.

During the summers, Tingley unloaded 10-gallon milk cans and delivered cream, butter and "lots of cottage cheese" to Russian River resorts. He worked 120 hours a week, made 90 cents an hour, earned $1,000 over the summer, and helped pay off their $3,200 mortgage. The couple also raised chickens, cows and pigs.

As an administrator, he devised the "home teacher" system, now rarely practiced, in which teachers taught two subjects to the same class. He delivered a paper on the subject in Atlantic City. After 10 years of teaching, he became principal of Cotati Junior High in 1941, then of Petaluma Junior High.

When Kenilworth Junior High was built in the 1950s, Tingley became its principal. But teachers, instead of being satisfied with receiving a reasonable wage for a job well done, "were beginning to talk salary, salary, salary," he says. "Of course, I can't say anything, because I hired most of them."

That, and the shift from a three-year to a two-year junior high school, convinced him it was time to retire, despite being offered the district superintendent's post. He did retire, in 1969, "and I've never been back," Tingley says.

Two types of numbers will be found in this book. One, the family number, consisting of seven digits. An example 11-01949, where the 11 indicates that the family is of the eleventh generation and the 01949 indicates that it is the 1949th family of that generation. The second type of number, the number of an individual as a child, consists of nine digits. An example is 11-01949-01, where the 11 indicates that the individual is a child of an 11th generation family, the 1949 indicates that the individual is a child of the 1949th family of that generation, and the 01 indicates that the individual is the first child of that family. Birth dates will indicate whether or not the correct sequence of the children is known or was known (no birthdate, or dates not in sequence, sequence was probably not known when listed).

The arrangement of the book is by family numbers. In the center of the line immediately preceding each family will be found the family number corresponding to that family. At the beginning of the paragraph describing a family will be found the number of the head of the family as a child. This enables one to trace a line back to the beginning, that is, back to Palmer.

Under each family those children appearing elsewhere as heads of families will have, following their birthdate, the family number of the family of which they are the head. If married to another Tingley descendant, the child may be shown as the spouse rather than as the head of that family. This enables one to trace the descendants of an individual.

The numbers appearing in the index are family numbers. It will be noted that some of them have a prefix "S". Such a number following an individual's name in the index indicates that person is a spouse of a Tingley descendant. Thus ROLAND, Roy Sherman S11-01949 is the husband of Margeurite Fay Hathaway 10-01178-03 when she became head of family 11-01949. He is found in the paragraph just below the family number and before children are listed in the family.

When the number following an individual's name in the index has no "S" prefix that number is a family number under which the individual will be listed as a child. Thus, ROLAND, John Leroy 11-01949 is found in the 11th generation, 1949th family and is the second child shown. The number following his name is 12-02359, which will appear in a future volume. If no number is shown, he was not married (or it was not known) at the time the book went to press.

To trace one's own line back to the beginning, that is, back to Palmer, one should start with his own name and the number which follows his name in the index. For example, as above, 11-01949 following name ROLAND, Juanita Fay, in index will be found in the 11th generation, 1949th family and is the first child. Her mother, at the beginning of the paragraph for family 11-01949 has a number preceding her name 10-01178-03. This says that she was the third child in the 1178th family of the tenth generation, Marguerite Fay Hathaway. By looking up the 1178th family of the tenth

generation (Vol. VI) it will be found that Marguerite Fay Hathaway is the 3rd child and the number after her name is 11-01949. Now to trace back farther repeat this process. For finding relationships between individuals see instructions in Volume I, page 518.

Adopted children and their lines are carried in italics to distinguish them from those of Tingley blood.

When a person was known by his middle name rather than his first name, that name is underlined.
